Testimonial for Kumeu Plumbing Limited -KPL

KPL have been an Aqua Tanks distributor for more than ten years and during that time have represented our products with integrity. The quality of our relationship is as rewarding as it has been professional.

During that time we have found KPL's Management and staff to be focused and open to new opportunities to provide KPL's customers with innovative and value-for-money solutions. This desire to provide excellent service has enhanced the professional relationship between our companies.

Through knowledge of his customers and their requirements, Darryl McDonald has grown KPL to be a respected supplier in the large geographical region KPL services.

Darryl's community spirit and altruism is frequently displayed in his openness and willingness to provide assistance to a wide range of local organisations and individuals that require an additional level of support.

In the years that I have been associated with KPL, Darryl and his staff have always shown me a level of friendliness not always experienced in business.

I am pleased to be able to provide this testimonial for Kumeu Plumbing Limited.

Mark O'Connell

A handwritten signature in black ink that reads "Mark O'Connell". The signature is fluid and cursive.
